June 2018

Principal—Lisa Rowan
Assistant Principal—Michele Bledsoe

Dear Wolf Pack Families,

It's been an incredible 2017-2018 school year. As we reflect on the highlights of our time spent learning and growing, we are grateful to our staff, students and families for their continued support throughout this year. Our focus on equity, college and career readiness, safety, and instruction, has improved our school culture, deepened our community connections, and engaged our students. We are proud of the hard work and commitment to continuous improvement and appreciate your partnership.

As we prepare for another exciting school year, please look for your student's placement information via email the night of August 28th. If you have not been getting Edgerton emails, please contact the office to update your email address for your family. School will begin for students in grades 1-6 on September 5th with Kindergarten students first full day on September 10th. We wish you all a relaxing summer spent with family and friends. It has been my honor to serve as your child's Principal.

Warmly, Ms. Rowan

From the Nurse:

If your student will need medication at school for the 2018-2019 school year please make an appoint with your physician now to get all paper work completed. Medication will be needed prior to the first day of school, or your student could potentially be excluded until medication and orders are received.

If you have a student entering 6th grade for the 2018-2019 school year please make an appointment with your physician now to receive the Tdap shoot, if you have not already done so. This is a booster to the DTap they received when they were younger. Documentation will needed to be provided to the school prior to the first day of school or your student could potentially be excluded until documentation is received.

Letters went home to students if they have a current 504 or medication at school. Please look those over, fill them out and return them as soon as possible. If we do not get a medication release form returned all medication will be destroyed after the last day of school.

Any questions please contact the nurse, Shawn Camargo, at 253-435-2712

Counselor's Corner

It has been a great year at Edgerton, and an honor to watch our wolf-pack learn and grow throughout the 2017-2018 school year! As we move into summer it is essential to remember that how students spend their summer is important to their academic success and emotional wellbeing.

When the school year is winding down, parents and guardians are usually busy figuring out how to keep their children busy and safe for the summer. You may be busy planning vacations, family reunions, signing kids up for summer sports and activities. While it is not a good idea to over-schedule your children, it is important to make sure you have some ideas planned that will keep their minds thinking and learning – using that fabulous brain! Children's minds are like sponges, there are opportunities everywhere for them to learn something new! When kids are young there is nothing better than spending time with you, their loved ones and sharing in fun brings people closer together. It is important, even in the busy world we live in, to set time aside for your children. Parents and guardians can help their children succeed in school and life by providing fun enrichment opportunities during the summer and throughout the school year.

Here is a few ideas on how to fit quality time in with your kids:

- **Homemade Pizza Night:** This is fun for kids, parents can roll out the crust and each person in the family can put the toppings of his/her choice on a personal size pizza.
- **Game Night:** Take one night a week or one night a month and make it a game night. Kids love to play games and they learn sportsmanship at the same time. Playing games that require kids to count such as board games, card games, counting somersaults in the pool – whatever it is, they'll be using their math skills!
- **Movie Night:** Take one night a month and make it family movie night. Let a different person select the movie each night, pop some popcorn and spend time together.
- **Family Fun Bag:** Sit down and make a list of all the fun things you want to do together. Write each one on a sheet of paper and place them in a bag. Draw one slip out each week or month and do what is on the slip on family fun night/day.
- **Spend time together at the library!** Join the summer reading program at the public library, they plan lots of fun activities and reward kids for reading books. Make sure you set aside time to read each day. Pick out a couple longer books to read aloud this summer – let your child help make the choices.
- **Visit museums or zoos with your children.** Spend more time at their favorite exhibit or near their favorite animal and really learn some facts about it!
- **Encourage your child to start a collection –** maybe rocks, shells, pinecones, or other natural objects. You can help them to do research on the internet or in books and learn interesting facts about the items they are collecting.
- **Learn some new recipes together.** There are any kid-friendly recipes that don't even involve using the stove.
- **Go camping!** There is so much to learn from nature. Tells stories around the campfire and sing songs. Take hikes in the woods. Stroll along the beach. Your child will love spending quality time with you outside!
- **Make sure to limit "screen time" to no longer than one hour per day.** Too much screen time on video games and computers will have a negative effect on their learning, physical health and social skills!

I wish you all a restful, fun, and educational summer - and look forward to seeing you next school year.

Sincerely,

Callie Hyman - Edgerton Elementary School Counselor
